OBJECTIVE

Motivated Computer Science graduate with a strong foundation in programming and database management, seeking an entry-level software development role to apply technical skills in building efficient, scalable applications.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Relevant coursework: Data Structures, DBMS, Object-Oriented Programming, Web Technologies

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Database:** SQL
- **Web Technologies:** HTML, CSS

PROJECTS

Library Management System

- Designed and developed a Library Management System to automate book issuing, returning, and inventory tracking.
- Implemented core functionality using Java and Python with SQL for database management, including tables for books, members, and transactions.
- Built a simple front-end interface using HTML and CSS for user interaction.

STRENGTHS

- Strong problem-solving and analytical thinking
- Good understanding of core computer science fundamentals
- Quick learner with a keen interest in software development
